Frequently Asked Questions

The Snow Plow Hit My Mailbox...

Mailboxes should be on breakaway posts (no larger than 4" x 4") located at least 3 to 4 feet from the pavement with 42 to 48 inches of clearance from the ground to the bottom of the mailbox. We will replace mailboxes we damage with mailboxes of similar value as long as these guidelines are followed. Contact the US Postal Service for more info.

What is the Long-range Plan for Highway 10 between Amherst & I-39?

The WisDOT states that "while there are currently no plans to construct a new location for Hwy 10, the identification and mapping of the future location is part of routine long-range planning. A public hearing is being planned for this summer so the future location can be mapped and recorded. WisDOT will continue to monitor traffic and safety conditions along the existing US 10 corridor and will not proceed with any plans to relocate US 10 until the current alignment can no longer safely handle regional and local traffic. The department's priority is to ensure that the current location of US 10 can operate safely and efficiently in its current location." Look for more in the April newsletter. Contact Supervisor Nichole Lysne at WisDOT, (715) 421-8040 for more information.
